Instructor answer key for the Kahoot import file

How to import

1. In Kahoot, choose **Create**, then **Import spreadsheet** (the ‘Add question’ menu offers ‘Import spreadsheet’).
2. Upload **Day2_S3_Kahoot.xlsx**. All 20 questions arrive as quiz questions with a 20-second timer.
3. Set the kahoot’s cover title and run it in the room at the end of the session, or as a homework challenge.

Design notes

Written against the “longest answer is right” habit: on every question the four options are within a few characters of each other in length, the correct answer is spread evenly over positions A to D, and no option is “all of the above”. Question text under 120 characters, answers under 75, as Kahoot requires.

Correct answers by position A, B, C, D: 5, 5, 5, 5.
